

Lindi Lamola

I am a lecturer at the Division of Human Genetics, University of the Witwatersrand. I completed my postgraduate studies at the Division of Human Genetics at the University of Cape Town, where the focus of my work was on inherited cancers. The focus of my research has since been more focused on inherited paediatric cancers. I am currently the principal investigator (PI) of the Paediatric Cancer (PeCan) project within the Division, where, together with my team, make use of Next Generation technologies to elucidate role of Genetics in childhood cancers.
